For Ever Young

September 24, 1993, from 4–6 PM, Stalke Out Of Space opened an exhibition with Christian Schmidt Rasmussen at Vesterbrogade 15, 1620 Copenhagen V.

The exhibition presented a summary of his work with painting dating back to 1988. Up until that point, his practice had been divided into a figurative part and a constructivist part. In the new paintings, these methods were merged, as interiors and figures flowed into a constructivist pictorial space without figurative boundaries.
